Upscale Building Services, Inc.
30360 Marshall Ct.
Westland MI. 48186
Attn; William Smith

Will,

I just want to say thank you for servicing Path, performing the building and final occupancy cleaning of our more than 400 high rise apartment units and 60 townhome units in Detroit, Sterling Heights and Burton. Our projects have not been the common new construction cleans but total renovations of occupied and unoccupied units. These units have presented their own challenges from oversized furniture to hoarders and yes even some pesky insects. Upscale has managed the challenges of our sometimes short, challenging and changing schedules without hesitation. I want to let you know the residents in the communities have complemented our field staff regarding Upscales staff's care and cleanliness of their apartments and belongings.

I have been involved with construction and building cleaning in over \$1.5 billion of construction projects in multiple states. I would put the results and customer satisfaction I have had with Upscale right up there with the biggest and best construction building cleaning services that I have used. It is always nice to deal with the owner of a company such as yours, there is a sense someone is really caring and committed to satisfying the client. I know we will be back in the Detroit area soon and will reach out to you again to assist us with our cleaning needs.

Please do not hesitate to list us as a reference, you may have anyone asking to contact me directly of email.

Thank you and good job

Sincerely,

Kurt Goudy
